

Beneath Southern Seas

AUSTRALIA'S AMAZING MARINE LIFE

A fascinating journey for all ages into our underwater world.
Presented by award winning filmmaker George Evatt.

The presentation was excellent especially the segments of the film relating to pollution, next generation and camouflage.

Pymble Ladies College NSW

Students K-6 were absolutely enthralled. The talk was well pitched and the fact that the presenter was the filmmaker and could answer questions about the footage was wonderful.

Bondi Public NSW

Not only is George a brilliant underwater photographer but he is also very passionate about the environment. He was an inspiring speaker.

Linden Park Primary SA

George's presentations are always marvellous. Young and old came away totally moved and inspired. A must for those who wish to understand and appreciate our watery planet.

Narrabeen Environment Centre NSW

Kids loved it. The footage was brilliant. This is the second time George has visited our school to enhance our Year 3 focus - The Sea. We look forward to having him back each year.

Caroline Springs College VIC

The students were enthralled by the presentation and were talking about it for days afterwards.

SCEGGS Darlinghurst NSW

George Evatt introduces students to the diversity and beauty of our coastal marine life. This dynamic, interactive DVD presentation includes footage of over 100 different sea creatures, 'hands-on' specimens and fascinating details such as:

- Life in tidal rockpools
- Sharks, rays, whales & dolphins
- Camouflage & courting
- Dangerous & threatened marine life
- Seahorses giving birth
- Survival in the Sea
- Human effects on the marine world

Additional secondary topics

- Ecosystems, foodwebs, adaptation & classification
- Supports syllabus outcomes for Science

George is a multi award winning underwater filmmaker. His documentaries have screened internationally on the **National Geographic Channel** and in Australia on the **Seven, Nine, ABC** and **SBS** networks. George's awards include the **Gold Tripod** for Best Nature and Wildlife Film, 1998 (Australian Cinematographers Society) and the **Palme D'Argent**, France 1999 (World Festival of Underwater Films). In 2003 he won **Best Film** at the Australian Oceans Film Festival and in 2004 George received the prestigious **Whitley Medal** (Royal Zoological Society of NSW) for best publication on the natural history of Australian animals.
